You're the best! Thank you.

It just looks like none of the Math classes I've taken are counting towards anything, but I took them with the intent to be able to teach dual credit. I am still needing 2 more, which is what I was looking to do this summer or fall if need be.

I appreciate your help so much.

Allison,

I want to let you know that I am looking into this for you right now. I'll admit I am not an expert at graduate advising yet, so I reached out to one of my colleagues who does do this to see if we can help you out. So while I don't have an answer for you just yet, I am pursuing one and I'll let you know just as soon as I know more.

Dr. Logsdon

Subject: 560, Just, Random Question

Good evening!

I wasn't sure who to reach out to about this, so I was hoping you could point me in the right direction. I emailed my advisor twice in the last week about my credits, what I need to do to graduate and classes offered this summer, but I have heard nothing back. I looked at Degree Works last night, and was confused because it seemed like I was nowhere close to graduating. I just want to make sure I am on the right track. I wasn't sure who else to ask to get an answer. I appreciate any and all help.

Have a great weekend.

Allison Just
