Subject: substitute teaching

Hi! I know we had discussed becoming an emergency substitute with WCPS this spring since I am not student teaching. How do I go about doing that? I was a sub last year but never went into any classrooms and this past summer was taken off their employee list. How do I reapply? I should still have an account set up from last year and already did my background check at the beginning of December because I thought I might be ST so I did it just in case. Thanks.
