(Image generated with AI - I look nothing like this. Like... at all.
Also, I'm a flesh and blood human being.
We'll begin working with Generative Artificial Intelligence during Module #3.)

Module 1 Roadmap

Welcome!

Module #1: Intro to Course and Global Goals

(due Sunday, May 19, 2024)

I am happy to lead the learning with you this semester!

Course Objectives #1 and #4 Addressed in this Module

Become familiar with the syllabus & course calendar

Click below to use Flip (formerly known as Flipgrid) to record an introduction video message. Record a 2-3 minute video, telling us who you are, an interesting fact about yourself, your major and/or minor, future career goals, your expertise with technology, and your thoughts on being a digital citizen.

It's okay if digital citizenship is a new concept to you! You can watch a quick video about it here: <https://www.youtube.com/watch?v=ODL9gK11ns0>

[Please note - this is a very quick, 1:13 minute video. It's not created for an undergraduate college student audience, but it is a quick explanation that will probably show you that you know more about it than you realize.]

You will need to log in with your **@gmail**, **@g.wku.edu**, or **@topper.wku.edu** email address to be admitted.

Go into the Class Introductions section when you have logged in to record (or post) your video! (I filmed my own video you may use as a model, but I also welcome creativity!)

<https://flip.com/e09f803f>

Use the comments feature and respond to at least TWO classmates you can make connections with.

This intro flip video (and responses) are worth 25 points (20 points for your video, 5 points for two responses). This is a nice, easy assignment to start off Module #1! (And if you are one of the first to post, remember to go back in a few days to reply to two classmates.)

Familiarize yourself with World Goals

1. Watch this video. [Sustainability World Goals Ted Talk](#)
2. Explore these global goals topics. [Explore all of the goals.](#)
3. [What goals do you feel the most passionate about?](#) Why?

4. Complete this survey to select your top 3 choices of a goal you might want to work with this semester. [Complete this Google Form to use your voice for choice!](#)

Begin Reading Our Class Text

Please read [Chapter 4 in our text](#).

To summarize, please complete the following activities by Sunday, May 19th, by midnight.

[Flip Introduction](#) (worth 25 points)

[World Goal Survey Google Form](#) (worth 25 points)
