Whew! I had talked myself into thinking that I was totally wrong!

Thank you for always being reassuring and having quick replies, it is so appreciated!

Cassie,

The 1-2 paragraph summary for module 3 is exactly what I wanted. You should be good there; I'll let you know if it's not what I need when I go to grade it.

And yes, that is a great question! You're in good shape there, too!

Dr. Logsdon

Subject: LITE 508 Data Analysis Assignment

Hi, Dr. Logsdon! I hope this email finds you well.

A few questions moving forward.

1. On our assignment 3 Data Analysis Module, I compiled the answers to all the prompts into one-two paragraphs answering the questions. Was I actually supposed to answer each prompt and then summarize it? I don't know why that just hit me, and you may have even said that in your video and it just went totally over my head. Basically, I'm wondering if I have done that assignment incorrectly?
2. Moving forward with assignment 4. I wanted to clear my research question by you to make sure I'm on the right track. This is what I'm thinking after looking at the link that you provided: Do libraries with higher budget expenditures per capita allot more Bookmobile hours per year?

Thanks so much!

Cassie Emery
