Hello Dr. Logsdon,

I am super excited to have you as my advisor!! You have always given me the time and opportunity to ask questions and it is greatly appreciated. Could we meet sometime soon to discuss a couple things I am curious about for the upcoming semester? Just to prepare you, I would like to discuss:

- when I should take the praxis
- places I can study for the praxis
- my schedule for fall 2024
- how to upload my hours from fall 2023 and spring 2024 onto anthology

Thanks so much,
Kylie Kays

Subject: New Advisor Welcome Message

Hello all,

My name is Dr. Logsdon, and I have recently been assigned to be your new advisor.

The purpose of this email is just to introduce myself. I realize that some of you receiving this email already know me as I have been one of your professors in the past, while I am brand new to others of you.

Regardless, I am here to help you in any way that I can as you finish your degree here at WKU. I'll contact you again closer to advising/registration season so that we may schedule a time to discuss your particular advising situation. That said, if you need me prior to then, please don't hesitate to email!

Thanks,

Dr. Logsdon
