Subject: Teambuilding Question

Jeremy,

I am trying to think of a collaborative project to show our MEC students how they can work with folks from other areas to enhance their ROTC programs. I have an idea, but I am not sure (1) if it will work; and (2) how to make it happen.

I know that almost everyone enjoys video games. Do you think you and I could collaborate on a team-building exercise that uses Mario Kart or something? I have a Wii that I could bring. It's probably 1st generation. I thought about asking our e-Sports team, but students wouldn't be able to coordinate anything right now.

Thoughts? Ideas?

Rheanna
