No worries! I thought I was just overlooking it!

Again, thank you so much for all that you have done for me in this class and all the other classes I have had with you!

Thank you,  
Andrea Rookard

I have no idea why I said Topnet! That should have been Blackboard! I'm about to send out a correction email. Thank you for replying to that! It'll be in the Bb gradebook.

And thank you also for your kind words. I am trying to stay as on top of assignments and grading as I can, which is a bit of a struggle at times with 43 students this summer.

Hello Dr. Logsdon,

I would like to thank you for being so on top of our grading and assignments! I am currently working on completing the coursework for your class and I PROMISE I will have it all done by August 4th. However, I got set back after our wedding and honeymoon. Plus, I have had several unknown things come up with work.

That being said, you are always so kind, compassionate, and understanding that I do not want you to feel as though I have given up on my coursework or that I will not complete it. As long as it is okay with you, I plan to finish it all this week.

Also, what do I need to search or click on in TopNet to find those comments? I checked our 5<sup>th</sup> Week Progress Report, but there is no option for the Summer term on my end.

Thank you for everything,

Andrea Rookard

LITE508-C70 (Su23): INFORMATICS IN EDUCATION

## **New announcement from Jeremy Logsdon**

### **All currently submitted Progress I Charts are graded with feedback**

Hello all,

As of 8:38 PM Central time, I have graded all of the currently submitted Progress I Charts.

Please make sure you log on to Topnet and check your feedback! Do not rely on your score (everyone got a 50) as an indicator that things are perfect.

The majority of you received a comment along the lines of "This looks good - carry on!" A few of you got some minor tweaks. A few of you also received a note that some major changes are needed.

A few of you suggested doing a qualitative research project. I understand this, because I ADORE qualitative research myself. I much prefer stories to numbers. However, with the final project due this Friday, August 4th, this pretty much limits us to a quantitative study using data from existing databases.

Please email me or arrange to set up a Zoom meeting with me if you are confused or need assistance. I am here to help, and I want to see you finish this course out strong!

Thanks,  
Dr. Logsdon
