Video and samples of student work look fine. You'll post these on your Google site, which I'll evaluate near the end of LITE 590.

I'll give the link to my calendly, which shows my schedule during my normal office hours:

<https://www.calendly.com/drlogsdon>

You are also welcome to email me if you'd like to do non-calendar times, as I do have availability at other times (such as evenings at home).

Dr. Logsdon,

Let me check with my school LMS to see when she is free. What are some other times you have available? Do I email you my video and work samples?

best,

Edith

Edith,

I am happy to review your videoed lesson! The main thing I am looking for is instruction in the realm of the practicum, libraries, or educational technology, and some samples of student work.

I hope to get the Blackboard site for the summer posted soon, but we can go ahead and get that Zoom scheduled asap. I am free tomorrow starting at 3:45 Central time. When are you thinking? I have other times available this week and next as well!

Thanks,  
Dr. Logsdon

Dr. Logsdon,

I am wondering when you would be free to zoom with my schools LMS and I? I have a video lesson, but can you review to see if that is what you are looking for before my students leave at the end of next week?

Best,

Edith
