Hi Dr. Logsdon!

The best periods for you to join us is 2nd and 4th (4th is the 9th Grade Black Male Scholars Cohort). This would be either 930-1030 or 1140-1245. I will have started taking over some smaller lessons by the week of September 2-6th, specifically Tuesday and Wednesday. On Tuesday the 3rd, I will be leading a small lesson in 2nd period. On Wednesday the 4th I will be leading a small lesson in 4th period. Let us know what works best for you!

Best,

Morgan Flanagan

Subject: Student Teaching, First Formal Observation

Morgan,

I hope the start of the fall semester and your first semester teaching is treating you well!

I would love it if we could get our first official university observation done sometime in the next two weeks. We'll need to do four formal observations over the course of the semester.

I always recommend that the first observation is done in the class you feel you are having the easiest time with. I will need to balance the time with my own work and teaching schedule, but I can be quite flexible otherwise.

What class period would you prefer and what day?

Thanks,
Dr. Logsdon
