Micha,

I wanted to thank you for sending out the survey on an important topic. I also wanted to thank you for a smooth survey experience in terms of usability, survey length, and opportunity to provide information.

Thanks,
Adam

Subject: Survey on WKU faculty's perception of generative AI

Dear WKU Faculty,

We are conducting a research study at Western Kentucky University to explore faculty and student attitudes and usage patterns related to generative artificial intelligence (AI) in academic settings. As a valued member of our faculty, your insights and experiences are crucial to this important research. We invite you to participate in a brief online survey that will take approximately 10 minutes of your time. Your responses will help us better understand how generative AI is perceived and utilized within our university community, contributing to informed strategies and policies for its integration in teaching, learning, and research.

If you are interested in participating in a more in-depth discussion, you may also volunteer to join a focus group session. These sessions will provide an opportunity to engage in meaningful conversations about the role of AI in academia and will be held on campus at a time convenient for you.

To participate in the survey, please click on the following link:
https://wku.co1.qualtrics.com/jfe/form/SV_2hND1Q53CW5p7W6

Your participation is entirely voluntary, and your responses will be kept anonymous. We greatly appreciate your time and contribution to this study.

If you have any questions or would like more information, please feel free to contact us.

Thank you for considering this opportunity to contribute to our understanding of generative AI at WKU.

On behalf of the research team,
Micah
