Subject: LITE organization and assessments from CITL Virtual Office Hours

Hi Jeremy,

I hope this email finds you well and your fall semester going well.

Sorry I'm just reaching out to you - I had planned to email you after the first 2 weeks of the semester!

We had discussed setting up groups in your LITE organization as well as a more efficient way to upload assessments from various LITE courses to that organization site.

I did find that there isn't a way to course link the assessments to the organization so at this time I think the only thing possible is the way you already have things set up where the student has to submit that project in the organization. I will think on this a bit more and ask my colleagues just in case there is a more efficient way for your students.

As for the groups, if you would like to send me a list of how you'd like those set up, I'd be happy to set those up for you.

*Thanks,
Stefanie*
