Thank you, Jeremy, for your wonderful students that came to my classes yesterday to share about Praxis Core, Praxis II, and other opportunities offered through the Center for Literacy. They were so informative, helpful, and I thought they did fantastic presenting for all THREE of my EDU 250 classes yesterday! If you don't care to share their names, I would love to write them a thank you note.

Erin, we did the Praxis assignment as well as a follow up to the presentation! It went well! I did find a change for the directions in part II when looking up student scores, but it's an easy fix that I'll share.

I appreciate you both!

Best,  
Katie
