**Subject:** Fall Campus Preview Days  
Good afternoon,

The Office of Admissions will host our next Campus Preview Days (formerly known as Head for the Hill) on **Saturday September 28<sup>th</sup> and Friday October 25<sup>th</sup>**. During these events, we will provide the opportunity for students and guests to tour our campus, attend information sessions on a variety of topics and interact with faculty, staff and current students throughout the course of the day. These students and their families can also attend our Information Fair breakout sessions to speak with various WKU representatives and learn more about academic, social and support offerings at WKU.

I would like to invite your colleges, departments, and/or programs to showcase your offerings during these fairs. Prospective Hilltoppers, along with their families, will be able to seek their interests and begin to engage with curricular and co-curricular programs and services prior to their enrollment. Beginning these relationships prior to enrollment at WKU builds a connection for incoming students as well as promotes a tremendous recruitment opportunity for faculty and staff seeking new students for involvement. The Information Fair will be held from **8:30 - 9:30 AM** on the main floor of Diddle Arena. **Please note this is a new time for the info fair.** If you (or your constituents) would like to participate, please complete the [Registration Form](#). Registrants will receive a reminder email a week prior to the event and you may begin setting up your table/display at **7:45 AM**. If you have any questions, please contact Owen Posey at [owen.posey@wku.edu](mailto:owen.posey@wku.edu).

Students who attend campus visits enroll at WKU at a much higher rate than those who do not attend. This is, in some cases, our first impression that these students and families will have of our campus. It is of vital importance that our participating campus partners show up and are engaged with these visitors throughout the time of the event.

As always, thank you for your assistance in recruiting the next class of Hilltoppers!

Scott
