SOAR_Overview_2026.pdf;

Dear Dr. Logsdon,

I hope you're doing well! We haven't had much of a chance this fall to discuss the new CEBS Strategies & Opportunities for Accelerating Research (SOAR) program, but you've been highly recommended to participate.

With that said, you are invited to take part in the inaugural CEBS SOAR Program for calendar year 2026.

Please consider this your official welcome and congratulations!

If you choose to participate, the SOAR program will begin January 2026 with an initial meeting with me to develop your SOAR plan. Attached is general information about the program and sample activities from which we'll develop your individual goals, followed by review/approval from your department head.

Please use this link to schedule our meeting between January 7-16: [Book time with Molly Swietek: SOAR Development Plan Meeting](#) (you may sign in as a guest)

If the above dates don't work for you, or if you prefer a Zoom meeting, please let me know. I'm really looking forward to working with you on your SOAR plan; answering your questions; and continuing to support you in your grant, research, and scholarly endeavors.

If I can answer any questions or provide further information at this time, please don't hesitate to reach out.

I hope you have a restful winter break and joyous holiday season!

All my best,
Molly

Molly Swietek
