

Center for Innovative Teaching & Learning (CITL)

October 23, 2025

Dr. Jeremy Logdson
Assistant Professor
School of Teaching Education
Western Kentucky University

Dear Jeremy,

On behalf of the Center for Innovative Teaching and Learning (CITL), I would like to express our sincere appreciation for presenting the session titled "Feedback in the Age of AI" on Monday, October 13, 2025.

I appreciate your willingness to share how you think about and use generative AI to provide feedback. Generative AI is still a new tool for educators, and many continue to struggle with if, when, and how to use it to assist them in providing feedback to students on assignments. I think it was beneficial for participants to hear that you view AI as a "thought partner" and a sounding board instead of a source of definitive answers. Additionally, your concrete examples of your prompts and your editing process likely resonated with participants as well. I'm confident, because of the session, participants are more likely to experiment with AI and use it as a tool to help them provide feedback to students.

We are grateful for your continued involvement with and support of the CITL and hope you continue to participate in future events. Thank you so much for helping to promote teaching excellence at WKU!

Sincerely,

Alicia Pennington, M.S., M.A.
Instructional Designer II/Faculty Developer
Center for Innovative Teaching & Learning
