As a cursory glance, this looks very good. The student worksheet section is optional – it is not required, and I can see this topic not really lending itself to that. An example of a worksheet that COULD fit there might be one where you have the students working with the content of reading strategies prior to making the bookmark, but again – this is optional and not required.

Would you mind to take a look at my IDP, specifically the student worksheet section? I am stuck here and not sure what you are looking for in terms of the bookmark creation.

Thank you for your help!

Devin,

You only need to do the video if you are doing alternate route/don't have students to teach in front. If you are actually teaching in front of students, no video is needed. All you have to have are some samples (at least one) of student work!

Dr. Logsdon

Subject: 535 IDP Teaching Assignment

Good morning Dr. Logsdon,

After watching the video about our IDP teaching week I just needed a little clarification. If we are teaching to a group of students are we still expected to video ourselves teaching and submit, or is that only for those students taking the alternative route?

Thank you,

Devin Powell
