To Logsdon, Jeremy <jeremy.logsdon@wku.edu>

Dr. Logsdon,

Thank you so much! I will incorporate Canva for the project if that is okay. Majority of my students are familiar with this particular platform. I appreciate you for being so helpful and caring!

Kelli Thomas

Kelli,

It has been almost 20 years since I've been in a high school English classroom, but I always enjoy getting to live vicariously through my grad students who are. :) So long as you steer away from powerpoint (which is one of the only banned platforms for the tech product), you'll be in good shape. Canva is absolutely acceptable!

I hope you enjoy the class!

Dr. Logsdon

Dr. Logsdon,

Thank you for responding to my email! My project topic is Jekyll and Hyde, one of my very favorites. My students are to create a presentation using Powerpoint or Canva, with a podcast included. Do you think that will be okay for this assignment? It is also very neat that you were an English teacher as well, any suggestions or pointers are always appreciated. I am far from perfect, but I am willing to learn and progress everyday in order to help my students. I look forward to this semester, as I know technology integration is an important aspect of classrooms today.

Thank You,

Kelli Thomas

Kelli,

So your authentic topic is Jekyll and Hyde? (I love that, by the way! I'm a former English teacher, so that sounds like fun.) And the tech product they'll create is a multimedia presentation including a podcast, or a multimedia presentation that IS a podcast? Either could work; I'm just seeking clarity.

And since you are currently a teacher, you won't need field!

I look forward to seeing how your project turns out!

Thanks,
Dr. Logsdon

New message from Kelli Thomas

Hi! I teach ENG IV as well as Humanities, I am focusing my unit on ENG IV students consisting of Seniors. We are beginning the story of *Jekyll and Hyde*, so the implementation of technology will align with appropriate standards and the story as well.

OBJECTIVE: Students will be able to analyze the themes of duality and identity in "Jekyll and Hyde" by creating a technology project that demonstrates their understanding.

Students must include within their projects:

- * Themes of Duality

- *Character Analysis

- *Textual Evidence

- *Multimedia Presentation and Podcast-How is duality portrayed in modern media (films, books, etc.)

Any multimedia items must be viewed online
