Dear Faculty and Staff,

I want to extend a sincere thank you to everyone for making yesterday's Preview Day such a success. Overall attendance was strong, and the energy and enthusiasm from our prospective students/families were evident throughout the day.

A special thank you to Dr. Fischer for the warm and welcoming remarks that set the tone for the event.

I'd also like to recognize Mr. Posey and his entire team for their thoughtful planning and execution of the event. Even with the extreme heat, the day ran smoothly from start to finish, and it showed the effort that went into every detail. Thank you to Mr. Huffman for providing hundreds of bottles of water to keep our visitors cool and comfortable!

The success of Preview Day would not have been possible without the dedication of our participating faculty and staff. Thank you for representing our university so well and for helping us welcome the next group of Hilltoppers. A few moments from the day are below. Happy 4th!
