Megan,

I am actually your point of contact for this class, and emailing all of our adjuncts was on my list for today! Let me copy below what I sent our adjuncts back in the fall, which includes a one hour video where I walked them through the structures of the class.

You'll get another email from me in a few hours, along with our other adjuncts, for the spring as well!

Please feel free to email me with any questions you have about anything. I am here to help!

Jeremy

Hello all!

This is the 1 hour (technically 1:05) training over LME 448. We'll certainly share more information, and we are obviously here to help you out whenever that may be!

Just a few reminders:

- 1 – remember to upload your syllabus to Topnet as soon as you can.
- 2 – remember to add Dr. Paganelli and me to your Blackboard course sites after you've gotten them built (this is for Colonnade/accreditation purposes).

Thanks,  
Jeremy

Dr. Logsdon,

I saw you were listed as the previous instructor for Technology Apps in Education (LME 448-703). I will be teaching the class in March and am preparing for it. Do you have any resources you would like to share or any advice about teaching this class? This is my first class I will be teaching as adjunct and I still have a lot to learn. I am very excited! Thanks for your help!

Megan Langdon
